PLANTLAND Celebrates its 20th ANNIVERSARY at ELSBERRY With a Great MONEY SAVING

ST. LOUIS POST-DISPATCH
SUNDAY, AUGUST 25, 1957—PART 7

HARVEST SALE

Greatest Assortment of Nursery Stock in the
Region—Over 10 Million Plants on Our 250 Acres
**SAVE NOW—During Our HARVEST SALE! These
Page 1 Specials Will More Than Pay for Your Trip.
Plan to Visit PLANTLAND Soon—or by Mail Today!**

New! Our "Pre-Planted" PFITZER JUNIPER

Never before have we—or anyone else—brought you an evergreen re-established in a fortified light weight planting mix with every single root intact and undisturbed. This plant can't help but grow, and we guarantee—without reservation—that it will not only transplant perfectly but will actually outgrow and out-perform any other Pfeiffer of similar size you can buy. Free replacement or your money back if it doesn't!

Now we have a "pre-planted" plant that will actually transplant better—less shock or set-back—than one dug with a soil ball (B&B)! (See pages 4 and 8 for other evergreens similarly prepared).

"Pre-Planted," Sturdy, 3 Yr.

Plants, 12 in. Spread There is no quantity discount whether you want 1 or 1000

"Christmas All Year"

AMERICAN HOLLY

Finest broadleaf evergreen in America. Cutting twigs only increases density and form. Grows in sun or partial shade. We grow thousands and never have enough. These plants are seed-grown from selected types that have endured northern winters for as long as 70 years.

10 to 12 in. plants growing in soil blocks

Special - Only

\$1 Each
Post-paid

Colorado BLUE SPRUCE

Last spring a sellout! And this fall crop is even better! Plants are a year older and our own container-grown stock for perfect transplanting. Trees are grown from blue trees and predominate in the bluer hues. Plant in full sun and mulch with manure, leaf mold, Michigan Peat or other mulch rich in nitrogen to bring out color.

Strong 5- and 6-year old, twice transplanted 8-12 in. in height. Will develop into priceless specimens.

LUXURY HEDGING at HARVEST Sale Prices

Evergreen WALL OF GREEN

May be confined to a low hedge 15 in. tall or allowed to grow into a tall screen to 15 ft. Our foreman, Mr. Blackmore, has a perfect gem of a WALL-OF-GREEN hedge which he has held to only 15 in. tall and wide for almost 20 years by simple shearing 2 times a year. The U.S. Plant Center adjoining us has hedges and screens of this same wonderful plant from 3 ft. to 20 ft. in height, all the same age. Hardy, FAST-GROWING, durable. Evergreen foliage emerald in summer, rich forest green with bronze in winter. Prefers full sun. Plant two feet apart. Stocky, 15-18-in. Cantaleer-Grown Plants.

\$100	10 ft. of hedge (5 plants) —	\$4 ⁹⁰
EA. POST-PAID	20 ft. of hedge (10 plants) —	\$9 ⁵⁰

	100 ft. of hedge (50 plants) —	\$45 ⁰⁰

RUSSIAN OLIVE HEDGE (*Elaeagnus angustifolia*)

Exciting gray-green silvery foliage. Yellow flowers, silvery outside, in June. Thrives most anywhere. A favorite species for screening and windbreak planting. Grows to 20 feet.

Heavy 18-24 in. seedlings. Set 2 feet apart for quick-knitting hedge.

10c EACH in quantities of 25 plants or more. Postpaid

Gain Low-Cost Privacy and Protection With Lovely

AMUR HONEYSUCKLE SCREEN (*Lonicera maackii podocarpa*)

Now your home grounds can be screened from dust, noise, traffic, objectionable views and trespass with this living fence of sturdy, vigorous Amur Honeysuckle at amazingly low cost. Referred to as "Thanksgiving Honeysuckle" because of its profusion of bright and frost-green foliage at Thanksgiving, when other shrubs are bare. Never needs spraying; red berries in late May. Completely hardy and disease free. Does not become "leggy". Fragrant flowers in late May. Set plants two feet apart in a single row for a perfect nesting haven for song birds. Thrives in sun or shade. A bushy plant from the ground up. Does not become "leggy". A perfect nesting haven for song birds. Set plants two feet apart in a single row for hedge effect next summer.

Field-grown, branched, vigorous plants, 24 inches.

------------------------------	--	---

Berberis MENTORENSIS

Do you want a truly aristocratic hedge—one that is used in the most luxurious and dignified home plantings, yet one that is very sturdy, hardy, easy to grow, yet inexpensive? Then Mentorensis is for you. It has the richest of foliage (which is semi-evergreen) and a dense twiggy growth which creates an emerald wall. Dainty yellow flowers are borne in May and red berries in autumn. Thorny twigs discourage trespass. Growth is moderate and hedge is easily maintained at any height from 18 in. to 5 ft. Plant our heavy plants 18 in. apart in a single row.

Plantland's LUXURY HEDGING at HARVEST SALE Thrifty Prices

(Amur Maple Hedge)

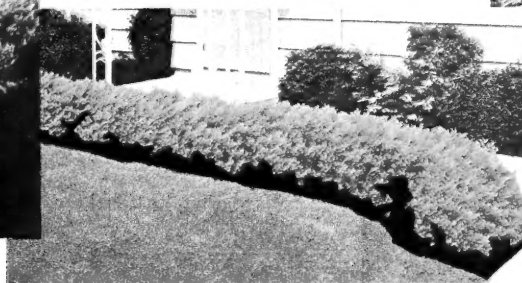

AMUR SCARLET MAPLE

(*Acer ginnala*)

Best dwarf Maple. Gay and colorful summer and autumn. In the summer the scarlet-red fruit against forest-green foliage creates an excellent color combination. A good tree for specimen or for screening purposes, requiring practically no care. Now is the time to plant—now is the time to buy!

30 ft. of Screen (10 plants) 4.50	60 ft. of Screen \$8 (20 plants)
120 ft. of Screen (40 plants)	15.50 (All Postpaid)

GOLDEN VICARY (*Ligustrum ibota vicaryi*)

At long last! True dwarf, golden leaf plant, perfect for hedging or low edging for beds or walks. **Our plants remain bright golden yellow throughout growing season.** Slow grower, so needs little trimming. Easily maintained at eighteen inches. Plant in full sun for best color effect, on twelve-inch centers in the row.

Sturdy 10 to 12 inch, 2-year plants	79c Each	20	for	\$10	5 for 3.49 10 for 5.95	Postpaid
---	-------------	-----------	-----	-------------	---------------------------	----------

DWARF BLUE LEAF WILLOW HEDGE

(*Salix purpurea nana*)

Exciting new silver-blue hedge plant. We have observed this plant go through our recent Sahara-like summers and have been amazed at the way the feathery, compact foliage stood the worst of the drouth.

Use it trimmed as a colorful, low formal hedge around beds or walks. Let it grow untrimmed where you wish a soft mound-shaped hedge three to four feet. Plant one foot apart **Field-grown plants, 12 to 18 inches**

Each per 10	48c	Each per 50	45c	Each per 100	40c	All Prices Postpaid
----------------	------------	----------------	------------	-----------------	------------	---------------------------

RED LEAF BARBERRY

(*Berberis thunbergii atropurpurea*)

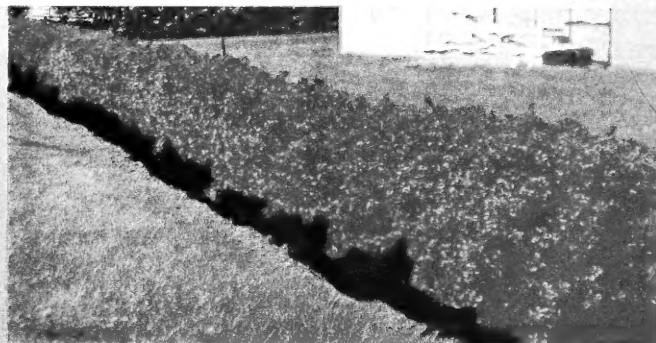

Great improvement over the older green Japanese Barberry. Blood-red leaves provide rich color to home grounds from spring until fall and the red berries remain to provide winter color. One of the most serviceable low hedge plants. Requires little if any trimming and grows in most any soil. Noted for ability to withstand dry conditions. Plant in full sun one foot apart for a tight hedge.

Save on PLANTLAND'S FAMOUS EVERGREENS

KETELEER JUNIPER

"One of the best, if not the best, of all the large upright forms of Junipers," L. C. Chadwick. A bright, sparkling grass-green winter and summer. Airy and spire-like in habit. For accent at corner or doorway, for background or screening, it is almost unchallenged. Completely hardy and disease-free. Moderate growth rate.

Heavy, compact, 3 ft. plants **\$5.00 each** postpaid

Blue Pfizer

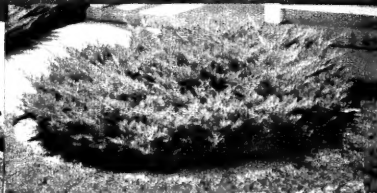

Aristocratic JUNIPERS

BLUE PFITZER JUNIPER (hetzi glauca)

Without doubt the finest, hardiest and most durable spreading shrub juniper introduced in a decade. Almost indistinguishable from regular Pfitzer, except has a bluish cast, is somewhat more upright and stronger in growth. It revels in full sun and harsh exposure and "will grow on a rock pile."

BURK SILVER JUNIPER

Recognized by many authorities as the best upright Blue Juniper. The eminent Dr. L. C. Chadwick ranks it above the popular Silver Juniper (*Virginiana glauca*). Burk Juniper is distinctively upright growing but of a more compact and confined habit. Its steel-blue foliage provides exceptional color contrast.

Andorra

ANDORRA JUNIPER (plumosa)

Our favorite semi-prostrate evergreen. Distinctly silvery-green foliage in summer; rich plum overtones in winter provide excellent color contrast. Most useful and ornamental for foundation plantings, terraces and groupings. Completely hardy.

Trailing Waukegan

TRAILING WAUKEGAN JUNIPER (douglasii)

Similar to Andorra but completely prostrate. Will spread over several feet while growing no more than 6 inches in height. Verdant deep-green in summer; a handsome Burgundy over-cast in winter. Unexcelled for covering banks and softening corners and terraces.

Burk Silver

Above Junipers are grown in gallon containers for perfect transplanting, 2 to 3 yrs. old, 12" or more in spread or height. You get all the roots and they will rapidly out-strip larger plants in growth.

Your choice of above varieties (please specify)

\$1.49 ea. 2 for \$2.90 5 for \$7.10 for \$13.50

Note: All these Junipers will grow in semi-shade but are most luxuriant in full sun. They will tolerate the harshest exposures.

The Favorite

Rocky Mountain BLUE PINE (Ponderosa)

A truly handsome pine, but one rarely seen in landscape plantings. Blue-green needles are long and shaggy. Spire-like form. Used as single specimen in groups or for background or windbreak planting. Strong, robust grower, enduring the hottest, driest situations and most severe northern blizzards. "Grows on a rock pile."

Field Grown, sturdy 18-24 in. plants
\$2.50 each 3 or **\$2.25 each** prepaid

ENGLISH BOXWOOD

Here is the classic and aristocrat among broadleaf evergreens. A Boxwood hedge or

edging around the rose or perennial garden is priceless. For hedging along walk or patio it has no rival. For years we have been building up an adequate stock of hardy St. Genevieve boxwood and now have a limited supply of 2 year, 10 to 12-inch plants that transplant perfectly. Our supply will be exhausted quickly at this price.

YEW

LUXURIOUS, DEPENDABLE BEAUTY
—at Modest Prices!

TAXUS—THE YEW FAMILY

We take great pride in our Yew (*Taxus*) plantings. Yews are, you know, the choicest evergreens for home landscape plantings. For years we have been developing a stock of the better varieties and can now offer a range of sizes and varieties unrivaled in this area. When you visit the nursery, be sure and inspect our specimens. Here are a few of the best varieties to fill any landscape need. All are of proven superiority for the harsh Midwest climate. They have endured our worst droughts and other weather severities. All are exceptionally handsome.

DWARF SPREADING YEW

(*Taxus cuspidata nana*)

Far superior to the old-fashioned spreading Yew. Dense and compact growing and refined in habit. Very desirable for foundation or door-step plantings. Heavily fruited with red berries in fall. Most widely acclaimed of the spreading Yews.

PLANTLAND YEW

About a decade ago we acquired a strain of yew under the name of Browni. There is some question as to the true identity of this yew, but we have found it unrivaled as a dense, bushy, somewhat spreading, broad columnar form. Exceedingly uniform in habit with most pleasing light green growth overlying black-green foliage. Its compact, rounded shape makes it useful in a dozen landscape situations or for dwarf or full-bodied hedging. Be sure to see our large specimens of PLANTLAND YEW when you visit the nursery.

HICK'S YEW

(*Taxus media hicksii*)

The best columnar or upright growing yew ever developed. Choice for hedging or for accent points at doorways or corner. Red berries in autumn.

HATFIELD YEW

(*Taxus media hatfieldii*)

A broadly pyramidal yew, most useful in the home foundation planting. Superb where one wishes a thick, upright hedge. Dense in growth, handsome dark green foliage. Bright red berries in autumn.

Hatfield Yew

Hick's
Yew

DARK GREEN THUJA

(*American Pyramidalis*)

Columnar, pyramidal in growth. Excellent dark, almost black-green foliage year 'round. Hardy as any plant we can offer. Fine landscape plant for accent at doorways or corners and for hedging and screening.

Special—18-24"

\$4.50 Value, \$225

5 to 6 ft. — — —

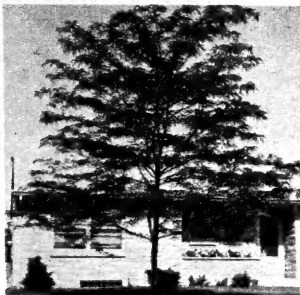

Plantland's HYBRID ELM

Blight-free — grows like mad — sturdy, tough, casts a soft restful shade.

Rarely do you find a combination of extremely rapid growth and durable, strong growth structure in a shade tree. Our grafted, Hybrid Elms provide this combination. These trees have never been known to be attacked by the blights of American Elm. For those who want a quality shade tree and want their shade the "day after tomorrow" Plantland's Hybrid Elm is the answer.

Field-grown 4 to 5 ft. **\$2⁰⁰** each Postpaid

Plantland's Fall SHADE TREE Sale!

← THORNLESS LOCUST

Has zoomed in popularity as a replacement for American Elm. Rapid growing, disease free, it casts light, lacy shade. Definitely a shade tree of distinction.

5-6 foot field grown
\$250 each, postpaid

WHITE BIRCH →

Everyone knows and loves the beautiful Paperbark (or Canoe) Birch. This tree grows rapidly and the outer brown bark soon exfoliates to reveal the snowy-white under-bark. The lacy foliage in summer and striking winter silhouette provides year-round charm.

4-5' container-grown for perfect transplanting
\$298 each, postpaid

"I have on several occasions bought nursery stock from you. The last order was received yesterday. You have excellent nursery stock, fairly priced and beautifully packaged for shipment. It has been planted and I'm only waiting for warmer weather when most of it will flower."

Charles W. Thomas
1930 Arden Rd., S.W.
Roanoke, Virginia

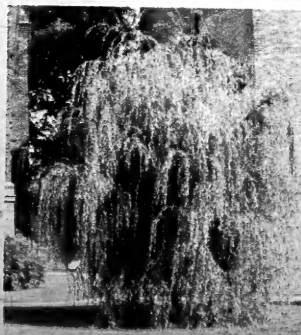

MISSOURI BLACK WALNUT

No nut tree excels the Black Walnut for stately growth and toothsome nuts. Our trees are seed-propagated from heavy-bearing parent stock growing on our own nursery farm.

Field-grown Transplants **\$200** each Postpaid

"Your shipments were superb and the plants were far and away better than I expected and much better than any nursery has ever sent to me. Thank you for your consideration."

Dr. R. T. Leiter
501 Persons Bldg.
Macon, Ga.

← GOLDEN WILLOW (weeping willow)

Finest of all Willows. Beautiful, graceful branches sweeping to the ground. Gold colored bark makes this tree attractive summer and winter. Effective as lawn specimen or around pools or streams. Very fast grower, and carefree. Specially priced for our Harvest Sale!

4-ft. trees Field-grown,

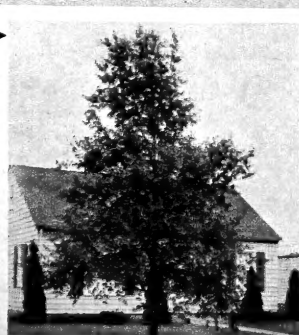

100 each Postpaid

SIBERIAN ELM → (Ulmus pumila)

Fast-growing, hardy tree. Few trees are so drought-resistant or suited to so many soils and locations. Free of, or resistant to, diseases and blights of American Elm. While waiting for slower growing hardwood trees to develop, Siberian Elm may be interplanted to provide "sudden shade."

Field-grown, well-branched, 5 to 6 ft. trees. Very special

200 each Postpaid

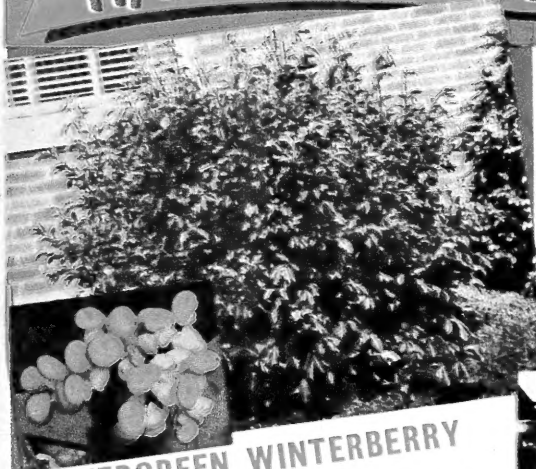

SWEET GUM

The most handsome tree we can offer. Rapid growth, freedom from disease, hardiness and wide adaptability. Its star-shaped leaves are unlike any other tree, and no tree displays such a riot of autumnal colors. Growth is columnar and stately, yet its branches spread enough to provide abundant shade. We believe we have the largest stock of Sweet Gum in America.

Field-grown, heavy-branched, 6-foot trees

TORCH AZALEA

(Kaempferi Hybrid)

Acclaimed by Arnold Arboretum to be "the best bright red Azalea for northern gardens—when in bloom they make a better display than any other azalea." These Azaleas were propagated by us and have gone through two winters; so we know they are hardy this far north. Use plenty of acid peat moss in building your Azalea bed and be sure planting bed is well drained—slightly elevated. Azaleas should always be planted in a protected spot like the east side of the house.

SHRUB CHERRY HEDGE
(*Prunus tomentosa*)
A beautiful, serviceable flowering shrub hedge which bears masses of luscious cherries. Grows to only 6 or 8 ft. in height, so never needs trimming. A veritable snow-bank of white, slightly pinkish blooms even before leaves appear. Sparkling, scarlet cherries, 1/2" in diameter in June and July. Cherries have a luscious sweet-tart taste that are delicious. My wife, Mary, has made the finest pies, jams, and jellies with them. Will fruit first year after planting! A very sturdy shrub and hardy even in North Dakota. Strong 2-year transplants 15" to 18". Plant 2 or 3 ft. apart in single row.

10 plants, \$4.90; 20 plants, \$9.00; 40 plants, \$17.50. All are postpaid

Plantland's FRUIT TREES —Regular and Dwarf

FRUIT-MOR-ENCY CHERRY

Until now Montmorency was unquestionably No. 1 among cherries, the famous pie cherry—surpassing all others for Canning and equally delicious fresh off the tree. Now we have Fruit-Mor-ency, a vastly improved strain of Montmorency developed in Fruitland, Idaho. Semi-dwarf; large fruit and abundant production. First time offered.

KANSAS SWEET CHERRY

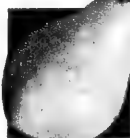

The one reliable red sweet cherry for the middle-west. Large, dark red firm fruit with unexcelled flavor. Prices on Cherries, top grade, 4 to 6 ft.

Nice Notes From Some of Our Satisfied Customers

"Received my order . . . very much pleased. Plants were sturdy when received and took hold immediately. I have ordered a large number of plants from most every nursery . . . found yours tops in all, and of better variety considering the price."

—Scotch Plains, New Jersey

"Thanks for your Harvest Sale announcement. The 'Crape Myrtle' I ordered from you last spring has been blooming since the first day of August and is a thing of beauty."

—Jefferson City, Mo.

"Received my nursery stock today in excellent condition. I am very happy about the shrubs and trees. They are wonderful . . . strong healthy and very good-looking."

—Portland, Oregon

"We enjoyed our trip to your nursery very much and feel that the three hours was a very short time to spend among so many beautiful plants. Thank you for your courtesy."

—St. Louis, Mo.

Lifetime MULTIFLORA ROSE "LIVING FENCE"

THE BEST LIVING FENCE you can buy! That's right, grade for grade you will find our Multiflora definitely superior. Grown by Hugh Stevenson, the originator of Multiflora Rose living Fence.

Our plants are grown on the best Mississippi bottom ground. Plants receive the best culture, including a feeding of balanced plant-food injected into irrigation water each time plants are irrigated. The result is a "fattened" plant, loaded with nutrients, that is "rarin' to grow." Folks are amazed at the growth of our plants the very first "stand still" the first year while the root system becomes established.

Horse High—Bull Strong
Goat Tight

year! Ordinarily, plants

And the fact that we grow and ship more of our living fence plants to more people throughout more of the country than any other nursery means we have been able to hold our price to rock-bottom minimum for quality stock.

Our Satisfied Customers—Your Best Guarantee

FROM MISSOURI: "I desire 200 more #1 Standard Thorny Multiflora Rose. None of the 350 I ordered last spring has died. Some of the shoots on some of the plants have already grown 5½ feet." St. Louis, Mo.

FROM OKLAHOMA: "I bought 50 from you last year, and they are wonderful." Oklahoma City, Okla.

FROM TEXAS: "This is a snapshot of a 3-yr.-old Multiflora Rose hedge (stock from your nursery). Has thrived thru Texas drought and grasshopper siege of last summer without irrigation. It borders the road and gets plenty of water from road ditch when it does rain." Ft. Worth, Texas

FROM MICHIGAN: "We planted Multiflora Rose Fence on our place at Pigeon, Michigan, in the fall of 1951—it survived two winters in fine shape and is now a nice fence—canes are 5 to 6 feet long—we're very proud of it." Lansing, Mich.

FROM ILLINOIS: "Of the 1000 plants of your No. 1 size which I set out last March all have made excellent growth except three—run over by a wheel in plowing. Attaining an average height of 28" in the past summer. I am willing to hazard the guess that I will have a cattle fence in less than three years!" Henry, Illinois

FROM PENNSYLVANIA: "We have had wonderful success with a thousand plants of your Multiflora Rose. After three years it will even hold our Cheviot Sheep!" Harrisburg, Pa.

FROM A SOUTHERN STATE GARDEN AND FISH COMMISSION: "We would like to place an order with you now for next fall delivery for 25,000 Multiflora Rose plants. The 20,000 plants we received from you this fall were excellent stock. "You will be interested to know that survival of the plants so far is almost 100%. They are making vigorous growth at this time."

Millions of Forrest-Keeling Multiflora Rose Plants
Have Been Sold to Make LIFETIME FENCING

GUARANTEE

We guarantee that 95% of the No. 1 Standard (and larger sizes) Forrest Keeling Multiflora Rose that you buy from us will live. If you will notify us during the first summer (before August 15) following planting of the number which do not live, replacement will be made equal to 95% of the number originally purchased. Conservation grade will ordinarily give excellent survival but we limit the guarantee to 85% because this smaller size is more vulnerable to adverse weather and site.

ELSBERRY, MISSOURI

Hugh Stevenson
FORREST KEELING NURSERY

FORREST KEELING MULTIFLORA ROSE is a thick thorny, blossoming shrub that attains a height of 6 to 8 feet. When the plants are set close together (12 inches) in a single row they rapidly form an effective barrier against animals and people.

We grow only one type of Multiflora and we think there is none better for hedge fencing purposes. Its growth is somewhat umbrella-like. Canes shoot up 4 to 6 feet or more, then begin to droop with the slender ends of the side canes hanging almost to the ground.

The importance of selecting the right type of Multiflora cannot be over-emphasized. The U.S. Department of Agriculture says "When selecting plants for your fence hedge of multiflora rose, be sure they are erect and have stiff thorns." The University of Missouri, College of Agriculture, has this to say: "The multiflora rose is notorious for variability of form and vigor. Upright, spreading and trailing kinds may be found. Some have thorns, others are thornless. For hedge fence purposes, it is important to select the upright, thorny, vigorous type which grows a mass of dense canes from the ground to a height and spread of about eight feet."

Selecting parent stock for thorniness, disease resistance and vigor. (Note our well-grown fields of Multiflora.)

PLAYGROUND MIX GRASS SEED

We have harvested FROM OUR OWN FARM a bountiful crop of Kentucky 31 Fescue. This grass has withstood torments of the drouth years and the hardest kind of usage. We blend our Ky. 31 with smaller amounts of nurse grasses and White Clover to make the sturdiest, hardest-wearing lawn ever. PLANTLAND'S PLAYGROUND is ideal for rough, tough use. Sow it where romping children prevent usual grasses from growing—or on slopes, in service areas and elsewhere you cannot maintain a turf. Because of our bountiful seed crop we are offering PLANTLAND'S PLAYGROUND at these low prices.

COB MULCH

Finest mulch—and most economi-cal, too — for mulching Roses, Trees, Shrubs, Evergreens, Flower Beds.

We grow 95% of our plants under mulch and haven't found any plant yet that doesn't thrive better under a blanket of mulch. This is Nature's culture. We use hun-dreds of truckloads of mulch an-nually and have tried every sub-stance. Cob mulch heads the list in making plants flourish. There is a definite growth stimulation from cob mulch as compared to other mulches.

Large 2-Bushel **\$100**
Bag, Only

NOTE: For Pick-up at Nursery Only

Right: Dr. Edgar Anderson, of the Missouri Botanical Garden, who discovered and introduced Bulgarian Ivy. He is standing, with Hugh Stevenson, head of Forrest Keeling Nursery, on a "smooth, green carpet" of the Ivy. Note also how the ivy clothes the tree-trunk in an evergreen

Harvest Sale of VINES

← BULGARIAN IVY

(*Hedra helix* MBG* Bulgaria) (*MISSOURI BOTANICAL GARDEN)

Truly a superb vine—providing a luxurious emerald carpet for your home grounds. Far superior in hardiness, vigor, character and appearance to any other ivy for use as a vine or shady-area ground cover. Brought to this country by Dr. Edgar Anderson, Director of the Missouri Botanical Garden (Shaw's Gardens), in 1934. We introduced this plant a year ago and our supply was quickly exhausted. It has proven itself for creating a "smooth green carpet" in shady locations where grass will not grow. Subsequent plantings have proved it will tolerate full sun. Its performance as a vine on stone walls, buildings and tree trunks is equally satisfactory. Its vigor, ease of establishment, verdant foliage and robust growth habit promise to revolutionize the use of ivy as a ground cover and vine in the midwest. Heretofore, none have been truly satisfactory. Our object is to bring you well-grown and vigorous plants of this wonderful ivy at a cost that will permit you to use it freely. Plants are packed to reach you in perfect condition and we guarantee that they will.

Plants grown in large plant bands
Not Postpaid—

CHINESE BITTERSWEET →

Most ornamental of our hardy northern vines. Trusses of gold and red berries are an annual autumn delight and they last well into the winter unless you harvest for bouquets. Rich deep-green foliage turns brilliant saffron in autumn. Hardy and vigorous in sun or semi-shade. Use on trellis, fences, pergolas and as bank cover.

3-Year No. 1 VINES Fall Sale Special 69¢ Each 3 for \$2⁰⁰

Long-Cluster, Heavenly Blue

WISTERIA →

(*Wisteria floribunda*)

Wisteria has long been a favorite vine in America but the short-clustered Chinese type (*sinensis*) has been the one commonly planted, while the Japanese (*floribunda*) with its extremely long flower racemes, or clusters, is rarely seen. It is much superior, with flower clusters that cascade 2 1/2 feet or even longer. It is considerably more expensive than the common type and well worth the difference. Our variety, with deep azure-blue fragrant racemes, is as spectacular as it is beautiful. Completely hardy.

2-Yr. No. 1 plants \$2 Ea. more 3 or \$180 each Postpaid

ORDER NOW!

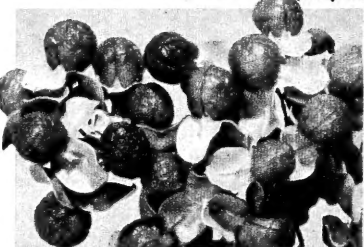

EVERGREEN BITTERSWEET

(*Euonymus radicans vegeta*)

Excellent evergreen vine, with lustrous, thick leaves. Has orange-scarlet berries in fall to add to its splendor. Beautiful against a stone wall or chimney. Makes a low shrub in the open. Not a fast grower, but its year round effectiveness is unequalled. One of the most sought-after broadleaf evergreens in America.

GREAT SAVINGS IN FLOWERING TREES

THUNDERCLOUD

Finest of the Purple-leaf Flowering Plums. This tree reaches only 12 to 15 feet at maturity but bald outline and flaming foliage gives a color glow to the home grounds no other tree can duplicate. In the spring, before foliage appears, bright red buds open into pink blushed blooms with deep red throat. Blooms are followed by small red plums that are good to eat.

Field-grown,
branched,
3 to 4 ft. **\$2.60** EACH Post-paid

GOLDEN FLOWERING DOGWOOD (*Cornus officinalis*)

Blooms at the same time as White Flowering Dogwood, but the whole tree is filled with a cloud of gorgeous golden flowers. Furthermore, we noted this past spring that bloom persists for two to three weeks. Flowers are followed by scarlet edible fruit, which may be used in making preserves. Foliage, silhouette and red autumnal color similar to White Flowering Dogwood. A rare tree, to 30 ft. with dense rounded habit.

A landscape prize at a special introductory price.

Branched Trees, 4 to 5 Ft. **\$3.50** Post-paid
